

# My Success Story

Name: JESSICA BRUCE

Programme: KICKSTART  
LIFE

My name is Jessica Bruce and I started with TBG Learning on the Kickstart programme to work towards my Numeracy qualification.

My results at school were good apart from my numeracy. I wanted to go to University College Birmingham and train to be a chef, but needed a higher grade in Numeracy.

When I started at TBG I lacked confidence and did not like being questioned directly in a group. After a couple weeks I started to settle into the course and my confidence grew, I would now join in with group discussions and started to enjoy learning.

I worked hard on my Numeracy and Literacy and managed to achieve an Entry Level 3 in Numeracy, this was enough for me to get into college.

I am now successfully in college working towards an NVQ and enjoying my time there.

I would like to thank the staff at TBG Learning that helped me achieve my goals and get on to my college course.
